1-800-MELT-ICE

Mountain Organic *Natural™ Icemelter* is a premium product designed to tackle the worst winter weather conditions, while still being completely organic and environmentally-safe. Mountain Organic works better than traditional icemelters, but carries none of the risks.

Effective to -23-C (-9-F)

Mountain Organic Natural™ Icemelter works effectively on ice and snow during tough winter conditions to -23°C (-9°F).

Concentrated Power

Mountain Organic Natural™ Icemelter begins to work immediately. Use 50 - 100 grams per square meter (1/4 - 1/2 cup per square yard).

Safe on Concrete

Mountain Organic Natural™ Icemelter does not chemically affect quality air entrained concrete or treated wood. It allows for a greater volume of water to evaporate, assisting in the prevention of damage to concrete associated with freeze/thaw cycles.

Safe on Vegetation

Mountain Organic Natural™ Icemelter is a fertilizer-based product, which will not harm vegetation or soil structure when used as directed. It is harmless to groundwater systems.

Safe to Handle

Mountain Organic Natural™ Icemelter will not harm humans or animals. It is safe to handle. Gloves are optional. WHMIS exempt in Canada. OSHA exempt in USA.

Clean to Use

Mountain Organic Natural™ Icemelter does not leave an oily residue. It reduces to a colorless and odourless liquid, with a more neutral pH balance.

Safe for Prolonged Storage

Mountain Organic Natural™ Icemelter will not lose its effectiveness during prolonged storage or when opened. It does not require special handling procedures or special storage facilities.

Product of Canada

Mountain Organic Natural™ Icemelter is manufactured and packaged in Canada.

Manufactured with Recycled Materials

Mountain Organic Natural™ Icemelter packaging contains post-consumer waste and is recyclable where facilities exist.
